Pulls Out!

Easy Clean

Anti Seize

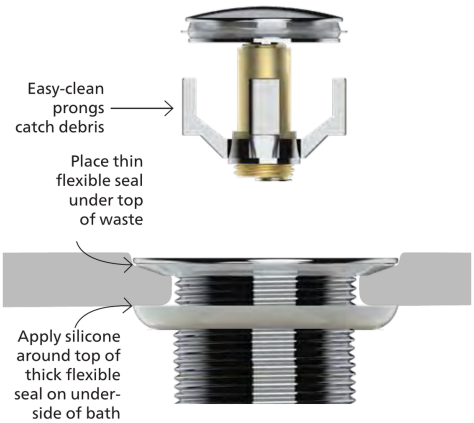

Anti Clog

easy clean

Patented Innovation

Drainage hole is open to enable plumbing access

Innovative easy-to-remove pop-out design

Why Pop-Out?

The pop-out waste does exactly what its name suggests — the top section of the waste simply pops out (or pulls out). This patented innovation has significant advantages including:

- **REMOVABLE** The top of the waste is completely removable. Easy access, easy cleaning.
- **ANTI CLOG** The 'prongs' on the top section of the waste catch debris (including hair) as it flows into the waste. The streamlined simplicity of this design makes it easy to keep clear and clean.
- **ANTI SEIZE** The pop-out design eliminates the possibility of the plug seizing in the waste.
- **OPEN DESIGN** The openness of the design promotes efficient drainage.
- **PREMIUM QUALITY** Durable, high quality finish — all components are premium quality.
- **OVERFLOW OPTION** Available for overflow and non-overflow baths.
- 40 mm hole – standard size for bath wastes.
- Connects to Australian Standard pipework.
- Drains faster than a pop-up/-down waste.
